Data Dictionary(Database)

Tech Stack:

React (Frontend), Node.js + Express(Backend), PostgreSQL(Database)

1. Categories

Stores product categories

Column	Data Type	Description
category_id	SERIAL (PK)	Unique identifier for category
name	VARCHAR(100)	Category name
description	TEXT	Optional description
created_at	TIMESTAMP	Record creation time

2. Suppliers

Stores supplier or distributor information.

Column	Data Type	Description
supplier_id	SERIAL (PK)	Unique supplier ID
supplier_name	VARCHAR(150)	Supplier name
phone	VARCHAR(20)	Contact number
email	VARCHAR(120)	Supplier email
address	TEXT	Supplier address
created_at	TIMESTAMP	Record creation time

3. Products

Stores product catalog information.

Column	Data Type	Description
product_id	SERIAL (PK)	Unique product ID
name	VARCHAR(200)	Product name
barcode	VARCHAR(100)	Product barcode
brand	VARCHAR(100)	Brand name
category_id	INT (FK)	Reference to categories
supplier_id	INT (FK)	Reference to suppliers
unit	VARCHAR(50)	Unit of measurement (kg, piece, ml)
description	TEXT	Product description
image_url	TEXT	Product image path
created_at	TIMESTAMP	Record creation time

4. Product_prices

Stores pricing information (allows price changes over time).

Column	Data Type	Description
price_id	SERIAL (PK)	Price record ID
product_id	INT (FK)	Reference to product
mrp	NUMERIC(10,2)	Maximum retail price
selling_price	NUMERIC(10,2)	Current selling price
gst_percent	NUMERIC(5,2)	GST percentage
effective_from	TIMESTAMP	Price effective date

5. Inventory

Stores current stock quantity.

Column	Data Type	Description
inventory_id	SERIAL (PK)	Inventory record ID
product_id	INT (FK)	Product reference
quantity	INT	Available stock
last_updated	TIMESTAMP	Last stock update time

6. Stock_movements
Tracks stock changes.

Column	Data Type	Description
movement_id	SERIAL (PK)	Movement record ID
product_id	INT (FK)	Product reference
movement_type	VARCHAR(50)	Type of movement (purchase, sale, adjustment, return)
quantity_change	INT	Quantity change
reference_note	TEXT	Additional details
created_at	TIMESTAMP	Movement timestamp

7. Customers
Stores customer information.

Column	Data Type	Description
customer_id	SERIAL (PK)	Unique customer ID
first_name	VARCHAR(100)	Customer first name
last_name	VARCHAR(100)	Customer last name
phone	VARCHAR(20)	Contact number
email	VARCHAR(120)	Email address
created_at	TIMESTAMP	Record creation time

8. Addresses
Stores customer address information.

Column	Data Type	Description
address_id	SERIAL (PK)	Address record ID
customer_id	INT (FK)	Customer reference
address_line	TEXT	Street address
city	VARCHAR(100)	City
state	VARCHAR(100)	State
pincode	VARCHAR(20)	Postal code

9. Orders
Stores customer orders.

Column	Data Type	Description
order_id	SERIAL (PK)	Unique order ID
customer_id	INT (FK)	Customer reference
order_status	VARCHAR(50)	Order status (pending, completed, cancelled)
total_amount	NUMERIC(10,2)	Total order value
order_date	TIMESTAMP	Order creation date

10. Order_items

Stores individual products inside an order.

Column	Data Type	Description
order_item_id	SERIAL (PK)	Order item ID
order_id	INT (FK)	Order reference
product_id	INT (FK)	Product reference
quantity	INT	Quantity purchased
price_at_order	NUMERIC(10,2)	Product price at purchase time

11. Payments

Stores payment details.

Column	Data Type	Description
payment_id	SERIAL (PK)	Payment record ID
order_id	INT (FK)	Order reference
payment_method	VARCHAR(50)	Payment type (UPI, Cash, Card)
payment_status	VARCHAR(50)	Status (pending, completed)
transaction_id	VARCHAR(200)	Payment gateway reference
payment_date	TIMESTAMP	Payment timestamp

12. Deliveries(for future)

Stores delivery information for orders.

Column	Data Type	Description
delivery_id	SERIAL (PK)	Delivery record ID
order_id	INT (FK)	Order reference
delivery_status	VARCHAR(50)	Delivery status
delivery_address	TEXT	Delivery location
delivery_time	TIMESTAMP	Delivery timestamp

13. Cart

Stores temporary customer shopping cart items.

Column	Data Type	Description
cart_id	SERIAL (PK)	Cart item ID
customer_id	INT (FK)	Customer reference
product_id	INT (FK)	Product reference
quantity	INT	Quantity added to cart
